## Detailed Information of the figure on the previous page

Title on the previous page		Changes in Active Job Openings (Seasonally Adjusted) in Iwate, Miyagi, and Fukushima Prefectures and Nationwide from January 2011 to March 2014
Point of displayed contents		Active job openings in the three prefectures in Tohoku remain at high levels compared with the national average; this is because job offers have increased as a result of increases in the demand for construction work and so on, despite dropping off in the aftermath of the disaster.
